

S3 RAIL

SCHLETTER

THE HIGH-PERFORMING LONG SPAN RAIL

The Schletter S3 rail is engineered for projects that demand maximum spanning capability. Featuring a continuous top channel compatible with standard M8 hardware, the S3 eliminates onsite punching or drilling—delivering a faster, cleaner installation. From **parapet-to-parapet layouts** to **carports** or **custom structural designs**, the S3 supports spans of up to 23.7 ft, reducing support points and simplifying construction. When long spans and installation efficiency matter, the S3 is your go-to solution.

PRODUCT DETAILS

MATERIALS

6105 T5 Aluminum

DIMENSIONS

W1-87 mm

W2-160 mm
